ERIN STAHL
For St. Clair Shores City Council

My Goals for the City Council

1. Establish an effective plan to clean up water / PCB contamination
2. Restore public confidence in city government
3. Maintain vital services without a tax increase
4. Bring fees into compliance with costs
5. Attract new tax-paying business into the city
6. Reduce expenditures to achieve the balanced budget required by the city charter
7. Refocus the efforts of code enforcement towards genuine blight & sources of pollution

How These Goals can be Accomplished*

- ⇒ Use recent award of \$700,000 to identify source of contamination, then develop plan to clean up. "Polluter Pays" where possible.
- ⇒ Maintain open communication with the residents through my web site & regular reports on council actions to the media.
- ⇒ Police, fire, EMS, water, garbage pickup, streets: These are vital to the community and must always come FIRST.
- ⇒ Review all fees & make certain that residents are charged only what it costs to provide the service.
- ⇒ Make St. Clair Shores "Business Friendly." Streamline permit process, reduce regulatory "hoops," establish "Welcome" policy and service.
- ⇒ Use city employees as a resource to identify areas where costs can be reduced - reward good ideas.
- ⇒ Direct the city manager to instruct code enforcement to change policy.

A Message from Erin...

Unlike those who fill their literature with empty promises and vague accomplishments, **I set goals.**

Clear, concise, understandable goals. If I am chosen to take a seat at the council table, it will be because I have listened to the citizens of St. Clair Shores, and my goals reflect what they want.

No matter who else is selected to sit at the council table with me, putting me on the city council sends a strong message to **ALL** of the council members. The message is that you have had enough of politics as usual and are ready for a positive change **AND that you agree with these goals and want to see them accomplished.**

And that's why I believe that I can achieve my goals – because they are *not just my goals*. They are the **goals of the people of St. Clair Shores.**

And together we can make them a reality!
