A personal message from Erin...

Dear Neighbors and Friends,

ERIN STAHL
for St. Clair Shores City Council

I have two reasons for running for council.

I want to make a positive difference - both in the **way that our council does business**, and **in the way our city treats our residents**.

I've got the know-how and the experience to change the way the council directs this community. Here's why:

I am currently pursuing an **advanced degree in finance at Walsh College**, furthering my knowledge on the long term affect of certain fiscal policies on the community. I think that a council person with the **understanding of finance** and real world economics is urgently needed, particularly at budget time and during other financial negotiations.

Most of my career has been in **customer service management** and **quality control**. I believe that the residents of St. Clair Shores are the "customers" of the city, and should be treated at all times with **respect, efficiency and courtesy**. As your councilwoman, I will make this my priority.

Times are tough for the older communities in Michigan. Our city policies and practices need to adopt a quality model that is focused on **efficient use of your tax dollars**, and a **customer service policy that puts the residents first**.

I have the skills, experience, and drive to make this happen. And with your help, I will.

- Scrutinize every line of the budget to eliminate waste
- Protect our residents from overzealous code enforcement harassment
- Treat all residents with respect
- Eliminate excessive fees for services
- Aggressively pursue state & federal funds for PCB clean up
- Make certain water rates are comparable to similar communities
- Reject any tax increase ballot proposals
- Retain our existing business and attract new business by establishing a "Business Friendly" attitude and environment

It is time to remind our Council that
they are elected to SERVE the residents...
...NOT the other way away around!
